

Transitioning to the new VPS Intellicrate®

A new era in packaging produce
for Woolworths across Australia

IMPORTANT ANNOUNCEMENT

On August 1st August 2017,
Woolworths will transition to the
new VPS Intellicrate® which sets a
new industry standard in Returnable
Folding Crates. VPS Intellicrates®
are the only produce crates that
can be supplied to Woolworths.

Ordering Intellicrates® through the online customer
portal at www.viscountpooling.com will ensure
crates will be made available for your collection at
your nominated VPS Wash Centre.

These crates will be used to supply Woolworths
nationality across Australia. **One Crate; All States.**

Overview

Viscount Pooling Systems Intellicrate® sets the new industry standard in Returnable Folding Crates delivering a new era in packaging produce to Woolworths suppliers across Australia.

The VPS Intellicrate® family of three crate sizes allows for both column and cross stacking when erected. The consistent height and footprint when packed or folded ensures you are utilising your freight efficiently while maximising your payload.

Features & Benefits

- Easy to assemble and disassemble. Works equally well in manual or fully automated systems.
- Smooth interiors ensure less product is damaged.
- Ergonomically designed bevelled handles.
- Fixed trip fee for agreed cycle days.
- RFID enabled Intellicrate® tracks crates throughout the supply chain.
- Each crate has the same footprint folded or loaded.

Order Quantity to Pallet

The complete family of Viscount Pooling Systems Intellicrates® are footprint compatible. Orders from VPS wash centres have a minimum order quantity of 186 units per pallet regardless of crate size. Please consider the information below when ordering crates.

	27L F Crate	33L B Crate	41L C Crate
Max layer of folded crates	31	31	31
Crates per layer	6	6	6
Folded crates per timber pallet	186	186	186
Height (inc. 150mm pallet)	≤ 1200mm		
Weight (inc. pallet)	≤ 500 kg

Crate Handling

Make sure each wall correctly locks into corresponding recess, securely lock all corners.

Crate usage

Produce identification should only be placed into the relevant tabs shown below. Identification should be in the form of a paper label. Please do not affix any adhesive labels to the crate at any time.
